## Eagle Solutions and Innovatech Products Create Business Alliance

Adairsville, GA – July 29, 2008 –The convergence of the surface preparation and decorative concrete markets took a significant step forward today as Eagle Solutions and Innovatech Products and Equipment announced a strategic alliance based on a shared vision for complete equipment systems and national service. By engaging the companies at the technology, marketing and business levels, the alliance will allow both companies to drive new growth opportunities and has the potential to ultimately transform the concrete polishing market by reducing costs and improving productivity for customers.

By combining Innovatech's world-class surface prep and concrete grinding equipment with Eagle's propane powered machines and national service network, the alliance will accelerate the availability of a truly complete product offering with fast delivery and next day service. This strategic alliance will help reduce total cost of ownership and better protect current and future investments. It will also accelerate the creation of new, innovative equipment.

Eagle Solutions is a premier manufacturer of propane powered floor maintenance and polishing equipment. Located in Adairsville, GA since 1989 they seek to bring "Better Results, Period" to everything they manufacture and sell. They eagerly look forward to developing a strong alliance with Innovatech and building a strong international network of distribution, training and service.

Innovatech Products and Equipment Co. is a leading manufacturer of surface preparation equipment. Based in Everett, WA, Innovatech has been bringing innovative products to the surface preparation industry for over 15 years, including a full line of electric planetary grinders and a full line of ride-on floor scrapers. Innovatech's alliance with Eagle Solutions will bring customers even more surface preparation solutions, wider distribution and better service than ever before.
